

How Was the Interview?

B: So how did it go? Do you think you got the job? **I really think that you would fit in nicely** at this company so I hope it went well.

A: I'm not sure. The HR rep she seemed kind of rushed and a bit distracted, but **I tried to connect the dots for her** and to make it obvious that I am the right person for the job.

B: Did you bring up your **internship** last summer in LA? Ya know, you have a lot of competition for this job so **you have to really talk about any experiences up-front that you have had** that would make you stand out.

A: Oh no, **I left that out**, but I did get a tough question about my weaknesses **and I was able to spin my weakness into a strength** by basically saying that I am a bit too achievement oriented. I think that **if she considers the flip side** of that then it will help me get the job.
